REPORTS HEAVY RAINFALL -- Ljubljana Slovenski Porocnavalec, 8 Aug 50

During the last few days, much rain fell in almost all of Yugoslavia. The rainfall was especially heavy in the Vojvodina 2 days ago. Twenty-four millimeters of rain fell on that day in the Srem. The Vojvodina is still covered with clouds, and more rain is expected. There were also several showers in Croatia. Much rain fell in the vicinity of Slavonski Brod, Varazdin, and Bijelovar. From 3 to 4 centimeters of rain have fallen in Slavonia and the Baranja. There was less rain in Bosnia and Herzegovina. The rain was especially beneficial to corn, sugar beets, hemp, and sunflowers in the Vojvodina.

The corn crop in the Vojvodina was badly damaged by the drought. Now the rain has improved it. The rain was also beneficial to corn, sugar beets, livestock fodder, and vegetables in Slavonia and the Baranja. In Croatia, the rain was especially beneficial to meadows and pastures. According to experts, the corn crop in Croatia will be completely revived.

The other republics also benefited by the rain.
